Summary of Record of Interview Requirements

Manual of Patent Examining Procedure (MPEP), Section 713.04, Substance of Interview Must be Made of Record

A complete written statement as to the substance of any face-to-face, video conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement with the examiner was reached at the interview.

Title 37 Code of Federal Regulations (CFR) § 1.133 Interviews

Paragraph (b)

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

37 CFR § 1.2. Business to be transacted in writing.

Business with the Patent or Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies or directly on the question of patentability.

Examiners must complete an Interview Summary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters, directed solely to restrictions for which interview recordation is otherwise provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out clerical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiner's Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the list of contents of the file wrapper. In a personal interview, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephone or video-conference interview, the copy is mailed to the applicant's correspondence address prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other correspondence is required, the Form should be mailed promptly after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

Application Number (Series Code and Serial Number)

Name of applicant

Name of examiner

Date of interview

Type of interview (telephonic, video-conference, or personal)

Name of participant(s) (applicant, attorney or agent, examiner, other PTO personnel, etc.)

Indication whether or not an exhibit was shown or a demonstration conducted

Identification of the specific prior art discussed

Indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by reference to a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not preclude further action by the examiner to the contrary.

Signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

At the conclusion of the interview, the examiner orally remind the applicant of his or her obligation to record the substance of the interview of each case. It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies or directly on the question of patentability. The Interview Summary Form will not normally be considered a complete and proper recordation of the interview unless supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the interview.

Each recordation of the substance of any interview should include at least the following applicable items:

1. The nature of any exhibit shown or any demonstration conducted,

2. The claims discussed,

3. The specific prior art discussed,

4. The principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,

5. The general thrust of the principal arguments presented to the examiner,

6. The results of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. Identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner is understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe arguments which he or she feels were or might be persuasive to the examiner.)

7. Any other pertinent matters discussed, and

8. The results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

The applicant should carefully review the applicant's record of the substance of an interview. If the record is not complete and the applicant desires to correct the record, the applicant has an extendable one month time period to correct the record.

Examiner to Check for Accuracy

If the claims are allowable for other reasons of record, the examiner should send a letter setting forth the examiner's version of the statement attributed to him or her. If the record is complete and accurate, the examiner should place the indication, "Interview Record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.
